*Iran is one of the oldest producers and the biggest trader of hand-woven carpets worldwide.*

The history of the Iranian (Persian) Carpet a culmination of artistic magnificence- dates back to 2,500 years ago. The Iranian people were among the pioneer carpet weavers of the ancient civilizations, having achieved a superlative degree of perfection through centuries of creativity and ingenuity. The skill of carpet weaving has been handed down to each generation, who built upon those skills and craftsmanship. To trace the history of the Persian carpet is to follow a path of cultural growth of one of the greatest civilizations the world has ever seen.

Traditional Persian carpets are highly popular and well known. It is no wonder, and certainly no secret, that this is due to their outstanding quality. The traditional hand-knotting, natural colors and fine woolen yarns are characteristics of the valuable Persian carpets, which have been produced in Persia (today: Iran) for centuries. In the traditional patterns and designs, they are back in demand to bring warmth and coziness to your own home.
